

La nueva generación de tejidos acrílicos todo terreno.

Adaptados para soportar tanto las inclemencias del SOL como de la LLUVIA.

The new generation of all-purpose acrylic fabrics.

Adapted to withstand extreme exposure to both SUN and RAIN.

La nouvelle génération de tissus acryliques tout-terrain.

Adaptés pour résister aux inclémences du SOLEIL et de la PLUIE.

Neue Generation von universal einsetzbaren Acrylstoffen.

Sie sind gegen die Unbilden von SONNE und REGEN geschützt.

1000 SUNRAIN represents the new generation of all-purpose acrylic fabrics. Adapted to withstand extreme exposure to both SUN and RAIN.

Its UV protection factors and high water column give it all the qualities required of a canvas for outdoor uses.

As a result, it is a fabric that offers many different possibilities and solutions in the following fields:

Outdoor stands, pagodas, reception marquees, restaurant awnings, terraces, grandstand canopies, ... and in general in any situation that needs extra protection from the rain, and also from excess sun and heat.

1000 SUNRAIN représente la nouvelle génération de tissus acryliques tout-terrain. Adaptés pour résister aux inclémences du SOLEIL et de la PLUIE.

Leurs indices de protection UV et leur schmerber élevé leur confèrent toutes les qualités exigées à une toile exposée aux intempéries.

Cette toile offre de multiples possibilités et solutions dans les domaines suivants :

Stands extérieurs, pagodes, chapiteaux de réception, tentes de restaurants, terrasses, couvertures de tribunes... et en général, toutes les situations où il sera nécessaire d'ajouter une protection contre la pluie en plus d'une protection solaire et thermique.

1000 SUNRAIN ist die neue Generation von universal einsetzbaren Acrylstoffen. Sie sind gegen die Unbilden von SONNE und REGEN geschützt.

Ihre UV-Schutzfaktoren und die erhöhte Wassersäule verleihen ihnen sämtliche Eigenschaften, die man von einer im Freien installierten Plane erwarten kann.

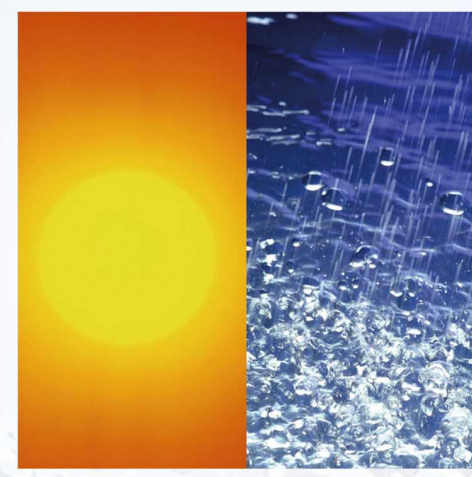

Somit bietet dieser Stoff vielfältige Einsatzmöglichkeiten und Lösungen in folgenden Bereichen:

Stände im Freien, Vordächer, Empfangszelte, Restaurantzelte, Terrassen, Bühnenüberdachungen ... und generell für alle Situationen, in denen außer einem Regen- auch noch ein Sonnen- und Wärmeschutz erforderlich wird.

Sus índices de protección UV y su elevada columna de agua le confieren todas las cualidades que deben exigirse a una lona cuya aplicación este ubicada en la intemperie.

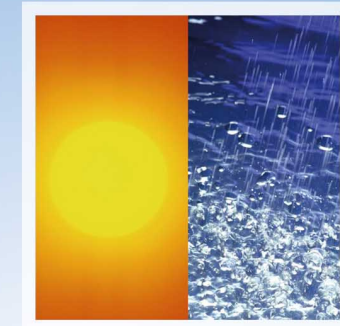

Por ello será un tejido que ofrecerá múltiples posibilidades y soluciones en los siguientes campos:

- Stands exteriores, pagodas, carpas de recepción, carpas de restaurantes, terrazas, cubiertas de tribunas... y en general en todas aquellas situaciones dónde sea necesario añadir una salvaguarda para la lluvia además de una protección solar y térmica.
